

# HOW TO BE A COVID-19 VACCINE CHAMPION IN YOUR COMMUNITY

You made the decision to get vaccinated because you believe that COVID-19 vaccines are safe and effective. However, for some of your family members, friends, co-workers etc., this decision might take some time.

Below are pointers to guide conversations about COVID-19 vaccines with those in your circle:

## **LISTEN:**

When a loved one is expressing why they are hesitant to get the vaccine, listen without judgement

## **ASK QUESTIONS:**

Asking open-ended questions will help your loved one get to the root cause of their concerns

## **SHARE INFORMATION:**

Help those around you get accurate information from trusted sources such as Centers for Disease Control and Prevention or the local health department

## **HELP THEM FIND A PERSONAL REASON TO GET VACCINATED:**

Share the reason why you decided to get vaccinated to help them think through why getting a vaccine might be beneficial to them

## **HELP THEM GET VACCINATED:**

Once your loved one finds their reason to get vaccinated, help them make an appointment, offer to go with them or give them a ride if they need it
